Gateway[©] Child-40 User Manual

Gateway 40-Child is a pivotal page set within the Gateway paradigm. The 40-Child MAIN page contains separate buttons for word endings for present

progressive (-ing), past (-ed) and plural (-s) to create all developmentally appropriate verb forms and noun plurals. Children can learn to add these morphological endings

Gateway Child 40 Manual (Revised 8/13/14)

Gateway Child-40 Manual

Overview

Gateway 40-Child is designed to meet the needs of school-aged children who have learned to sequence symbols to form telegraphic messages. These users have the potential to learn to use word endings, articles and prepositions and to create more syntactically complex sentences. The Gateway 40-Child page set is constructed to facilitate teaching of these language structures within an intervention context. Gateway 40-Child may be a logical next step for children using

Gateway 20-Child who now require a more complex vocabulary and/or who have made significant gains in their expressive language performance.

Gateway 40-Child has a powerful MAIN page (*Home Core*) with a core of the most frequently used words of our language available with a single key selection. Combined core and fringe vocabulary total well over 2000 words. A *School Core* page enables users to access topical school vocabulary without loosing access to Gateway's *MAIN* core.

Each word and word category are color-coded according to a modified Fitzgerald Key format with People - yellow; Verbs – green; Little Words – Pink, Descriptive Words – blue; Things – Orange and Places – purple. This color-coding is consistent throughout all of the Gateway pages to ease the transition from one page set up to the next level of complexity. Within the Fitzgerald Key, "Little Words" are defined as prepositions, articles and conjunctions and "Descriptive Words" includes adjective, adverbs, and time words.

Semantic Power Strips, sets of paradigmatically associated words, are included for mom, dad and many verbs. They are represented by a "+" sign following the button

label. The *Semantic Power Strips* are sets of paradigmatically associated words that provide a focused array of vocabulary to broaden the options available to the user. For example, selecting *"know+"* will open a semantic power strip containing – understand, remember, think, pretend, teach,

Go back

learn and know. Semantic Power Strips are also used for the pronouns *he* and *she* on the MAIN page.

represented in the page set.

Gateway 40-Child includes Sentence Development Links for eat, drink and wear. Other verbs are no longer linked under the premise that children will now be generating more unpredictable messages and require a more open system. A spelling with word prediction page is included to address a child's need to express words not

within a structured learning environment or spontaneously use them within the context of natural conversation.

40-Child is also developmentally the first page where Gateway's *Dynamic Morphology* (i.e., word endings are automatically added to verbs without requiring additional key selections) introduced. Verb endings are automatically added to 3rd person singular, present progressive, and the infinitive verb forms. A *Helping Verbs* Button contains parts of the verb "to be" – am, is, are, was, were, be and to be. Selecting any of these buttons activates the *Dynamic Morphology* feature adding "ing" to eac

Dynamic Morphology feature adding "–ing" to each of the verbs as appropriate. In addition to its core words, the *MAIN* page of 40-Child has folders for

Questions, People, Pronouns, Things I Do, Little Words, Colors, Helping Verbs and Spelling. These same folders are consistent for the Home Core and School Core. There are six (6) folders that change depending upon whether one is in the Home Core or School Core Environment. The Home Core, pictured above, provides a user access

to folders for *Things, Toys, Party, Household* and *Clothes.* The *School Core*, pictured to the right, contains folders for *School Things, School Places, Morning Meeting, Science, Social Studies*, and *Reading.* Each folder may have one or more subfolders offering additional related vocabulary. For example, the *Describe Folder* has subfolders for *Opposites, Feelings, Sensory, More Time and Numbers.* The Things Folder has subfolders for Foods, Body Parts,

Animals, Vehicles and Nature. The subfolders contain fringe vocabulary or words ranked low on standard word frequency lists.

The Question folder contains more than just the words: who, what, where, when and how. It contains several auxiliaries and models to enable the child to create questions without navigating from the questions page.

The My THEMES folder links the child to a page with eight *topical folders or tabs* – About You & Me, Questions, Comments, Manners, Silly Things, Time to Learn, Time to Play, and Time in Town. The About You & Me tab must be customized for the child. It can provide a means for a child to provide basic information about him or herself and also to ask questions from a communication partner.

The Questions Tab provides some general questions and should be customized to enable the child to ask relevant questions on an on-going basis. The *Comments, Manners* and *Silly Things* tabs can help a child develop their pragmatic skills as they learn to use language in a variety of communicative contexts.

The *Time to Learn* tab provides monthly theme pages, blank pages that can be customized for each subject along with some additional core vocabulary used in the school environment. Several of these subject folders link to the School Core so the topical vocabulary can also be used when the child may be required to respond using

more than a single word response. *Time to Learn* tab, pictured to the right, also provides access to the Spelling and Numbers pages.

The Time to Play tab contains eleven activity folders and three blank pages. It includes pretend activity pages for a *Tea Party, Dress-Up, Doctor's* and a *Phone Call.* It also has vocabulary for the game, *Guess Who*, a *Jokes* page, and *Riddles* page. There is one general literacy page and two books, *Good Night Moon* and *Where the Wild Things Are.*

The *Time in Town* page has pages that can be used within the community. Each of these would require some customization so they are most meaningful for the child to use. Pages include: *Grocery Store, At the Mall, McDonald's, Ice Cream, Vacation, Amusement Park* and *in the Park.* The *Boy Scout, Girl Scout and Religion* pages are open for customization and there are an additional three blank pages to support the personal activities of the user.

Using I and Me Fun Deck[™]

Using I and Me Fun Deck[™] is a card game, produced and distributed through Super Duper Publications (FD# -61) <u>www.superduperinc.com</u>. It is designed to teach the correct use of the pronouns I and me. The card deck contains 54 cards with each card of the pair depicting *I* as the subject and *me* as the object of the proposition. Since the game uses proper names for the characters depicted on the card, it is suggested is that a pronoun be substituted for them when using any of the Gateway page sets. The Using I and Me Fun Deck is an appropriate therapy tool for children, aged 4 years and up, who use Gateway[®] 40 or 60.
