# Gateway 40-Teen and 40- Text Manual

### Overview

Gateway 40-Teen targets teens and young adults who have good receptive and expressive language abilities but benefit from a 40 location symbol set. Gateway 40-Teen may be a logical next step for children using Gateway 40-Child who require a more advanced vocabulary and/or who have made gains in expressive language performance. The major difference between 40- Child and 40-Teen is that within 40-Teen some verbs and descriptive words have been replaced with a richer vocabulary that would be expected to be used by older

children. Also some folders have been changed on the theme pages reflecting the needs or more mature users. The vocabulary contents and organization of Gateway 40-Text mirrors that of the 40-Teen page set. The page set is designed for individuals who prefer a text-based system.

Gateway 40-Teen has a powerful MAIN page (*Home Core*) with a core of the most frequently used words of our language accessed using a single key selection. Combined core and fringe vocabulary total well over 2000 words. Each word and word category are color-coded according to a modified Fitzgerald Key format with People - yellow; Verbs – green; Little Words – Pink, Descriptive Words – blue; Things – Orange and Places – purple. This color-coding is consistent throughout all of the Gateway pages to ease the transition from one page set to the next level of complexity. Within the Fitzgerald Key, "Little Words" are defined as prepositions, articles and conjunctions and "Descriptive Words" includes adjective, adverbs, and time words.

A School & Community Core page enables users to access topical school and community-based vocabulary without loosing access to Gateway's *HOME* core. Use of the full complement of Gateway's "Dynamic Morphology" results in keystroke savings enhancing the efficiency of Gateway 40-Teen. Generating a sentence takes an average of 1.5 keystrokes per word.

Semantic Power Strips, sets of paradigmatically associated words, are included for mom, dad and many verbs. They are represented by a "+" sign following the button

label. The *Semantic Power Strips* are sets of paradigmatically associated words that provide a focused array of vocabulary to broaden the options available to the user. For example, selecting "*know*+" will open a semantic power strip containing – understand, remember, think, pretend, teach, learn

and know. Semantic Power Strips are also used for the pronouns *he* and *she* on the MAIN page.

Go back Understand Tremember Think Pretend Leach Leach

Gateway 40-Teen includes *Sentence Development Links* for eat, drink and wear. Other verbs are no longer linked under the premise that users will now be

generating more unpredictable messages and require a more open system. A spelling with word prediction page is included to address a user's need to express words not represented in the page set.

The 40-Teen MAIN page contains separate buttons for word endings for present

progressive (-ing), past (-ed) and plural (-s) to create all developmentally appropriate verb forms and noun plurals. Users can add these morphological endings as needed within the context of natural conversation.

40-Teen incorporates use of Gateway's *Dynamic Morphology* feature (i.e., word endings are automatically added to verbs without requiring additional key selections). Verb endings are automatically added to 3<sup>rd</sup> person singular, present progressive, and the infinitive verb forms.

A *Helping Verbs* Button contains parts of the verb "to be" – am, is, are, was, were, be and to be. Selecting any of these buttons activates the *Dynamic Morphology* feature adding –ing to each of the verbs as needed.

In addition to its core words, the MAIN page of 40-Teen has folders for *Questions, People, Pronouns, Things I Do, Little Words, Colors, Helping Verbs and Spelling.* These same folders are consistent for the *Home Core* and *School & Community Core*. There are six (6) folders that change depending upon whether one is in the *Home Core or School & Community Core* Environment. The *Home Core*, pictured above, provides a user access to folders for *Things, Toys, Party, Household* and *Clothes*.

The School Core, pictured to the right, contains folders for School Things, School Places, Morning Meeting, Science, Social Studies, and Reading. Each folder may have one or more subfolders offering additional related vocabulary. For example, the Describe Folder has subfolders for Opposites, Feelings, Sensory, More Time and Numbers. The Things Folder has subfolders for Foods, Body Parts, Animals, Vehicles and Nature. The subfolders contain fringe vocabulary that is not on any high frequency word list.

The Question folder contains more than just the words: who, what, where, when and how. It contains several auxiliaries and models to enable the child to create questions without navigating from the questions page.

The *My* THEMES folder links the child to a page with eight *topical* folders or tabs – About You & Me, Questions, Comments, Manners, Silly Things, Time to Learn, Time to Relax, and Time in Town. The About You & Me tab must be customized for the child. It can provide a means for a user to provide personal information and also to ask questions to a communication partner.

The Questions Tab provides some general questions and should be customized

to enable the user to ask relevant questions on an on-going basis. The *Comments, Manners* and *Silly Things* tabs can enhance a user's pragmatic performance as use language in a variety of communicative contexts.

The *Time to Learn* tab provides monthly theme pages, blank pages that can be customized for each subject along with some additional core vocabulary used in the school environment. Several of these subject folders link to the *School Core* so the topical vocabulary can also be used when the user may be required to respond using more than a single word response. *Time to Learn* tab also provides access to the Spelling and Numbers pages.

The Time to Relax tab contains eleven activity

folders and three blank pages. It includes activity pages for a *Bingo, Cards, TV*, and a *Snack*. It also has vocabulary for the game, *Guess Who*, a *Jokes* page, and *Riddles* page. There is one general literacy page and the book, "*Where the Wild Things Are*".

The *Time in Town* page has pages that can be used within the community. Each of these would require some customization so they are meaningful for the user. Pages include: *Restaurant, At the Mall, McDonald's, Ice Cream, Vacation, Amusement Park, Doctor's, Hair Salon, Grocery, Make a Call, Vacation* and *in the Park.* The *Scouts* and *Religion* pages are open for customization. There are an additional three blank page links to support the personal interests or activities of the user.

#### **Practice Sentences**

**Exercise 1.** The goal of this exercise is to provide practice using words from the MAIN core page and the links for Things, Foods, Clothes, Toys, and Places to form simple sentences.

### Using I and Me Fun Deck<sup>™</sup>

Using I and Me Fun Deck<sup>TM</sup> is a card game, produced and distributed through Super Duper Publications (FD# -61) <u>www.superduperinc.com</u>. It is designed to teach the correct use of the pronouns I and me. The card deck contains 54 cards with each card of the pair depicting *I* as the subject and *me* as the object of the proposition. Since the game uses proper names for the characters depicted on the card, it is suggested is that a pronoun be substituted for them when using any of the Gateway page sets. The Using I and Me Fun Deck is an appropriate therapy tool for children, aged 4 years and up, who use Gateway<sup>®</sup> 40 or 60. It comes with suggested activities for how the cards can be used.
