Gateway
To Language and Learning

By
Joan Bruno, Ph.D., CCC-SLP

Gateway 20-Teen
User Manual for the TouchChat

2003© Communication Technology Resources
www.gatewaytolanguageandlearning.com
Overview

Gateway 20-Teen targets teens or young adults with limited expressive abilities who can benefit from a 20-location grid. It differs from Gateway 20-Child in terms of some of the core vocabulary items and in the activities selected within the Themes pages. Users of 20-Teen can recognize symbols of nouns, verbs and some adjectives and adverbs. They may have the potential to improve their expressive language abilities. Some users may have transitioned from Gateway 12-Child to Gateway 20-Teen.

The MAIN page of Gateway 20-Teen contains the frequently used words – I, you, want, eat, have, go, wear, drink, make and play. It contains folders for People, Family, Things I Do (verbs), Little Words, Descriptive words, Things and Places. Each word and word category is color-coded according to a modified Fitzgerald Key format with People - yellow; Verbs – green; Little words – Pink, Descriptive Words – blue; Things – Orange and Places – purple. This color-coding is consistent throughout all of the Gateway files to ease the transition from as an individual moves from one file up to the next level of complexity.

The People category contains people, some pronouns and the question word “who”. Within the Fitzgerald Key, “Little Words” are defined as prepositions, articles and conjunctions. Within Gateway 20-Teen it contains several articles and a small core of prepositions. Within the Fitzgerald Key, “Descriptive Words” includes adjective, adverbs, and time words. Within Gateway 20-Teen it contains a small core of each of these word categories.

Gateway 20-Teen includes features that may help an individual learn to form multi-word messages and to expand the size of their core vocabulary. Sentence Development Links provide a simplified approach to facilitate sentence formation. Selecting a verb results in automatically opening a page of associated objects or “Things” that can be used to complete a message. For example, after selecting “eat” from the MAIN page, the foods page is automatically opened. The “eat” icon from the MAIN page is pictured to the right. Pictured below it is the linked Foods page with the two blue folders - Describe and Color/Shapes.

The “I + want + eat” had been selected from the MAIN page. Once the Sentence Development Link opens, based on the example to the right, the user had selected “scrambled” from the “Describe” folder and would then select “egg” from the Foods page. If the foods provided on this page do not match the preferences of the user, these should be customized.

Within most of the pages reached through a
sentence development link, also contain both a “Describe” and “Color/Shapes” link. These links or folders provide additional opportunities for an individual to expand his/her sentence complexity by adding an adjective or adverb to a message.

A user can easily ask for the “chocolate” or “big” cookie, without needing to navigate away from the food context. Efforts have been made to match the descriptive words within these links to the vocabulary on the targets object page. That is, the word, “chocolate” is provided for the food and make pages, but the word “brown” is provided with the clothing items.

Within the “Things I Do” page, Semantic Power Strips are introduced. The Semantic Power Strips are sets of paradigmatically associated words that provide a focused array of vocabulary to broaden the options available to the user. For example, selecting a symbol such as “say+” as pictured to the right, will open a semantic power strip containing semantically related words. In the example of “say+”, semantically related words are sing, talk, call, promise speak and yell. In Gateway 20–Teen, “cooking+” opens a Semantic Power Strip containing “cooking, mixing, pouring and baking.”

Within 20–Teen, the present progressive verb form, ‘-ing”, is modeled for some of the verbs on the verb page. The intent is to promote spontaneous usage of this verb form when communicating in later page sets.

A “My Themes” folder is located on the Main Page. This folder links the user to a set of five Thematic folders – About Me, Time to Chat, Time to Learn, Time to Relax, and Time in Town. Each of the folders contains a variety of words, messages of activity sets designed to increase a child’s opportunities for participating in dialogues, educational and recreational activities.

The About Me folder enables a user to share some basic identifying information. The Time to Chat folder contains five subfolders helping a user learn to ask questions and to comment. The Time to Learn Folder contains a monthly topic folder with single words and/or phrases often used within the context of the school setting. This folder also contains vocabulary for Circle Time and the Common Core. The goal the Common Core page is to support user’s who may be enrolled in an educational program using the “Common Core”. This page can enable the user to actively participate using generic messages across a variety of classes.

The “Time to Relax” folder offers seven (7) play activities for a user to engage in with peers or mediated with an adult communication partner. These include Bingo,
The "Time in Town" Folder, pictured to the right, includes pages that can be used when communicating within the community. The twelve (13) thematic pages include Grocery Store, At the Mall, Restaurant, Ice Cream, Hair Salon, Doctor, Call Someone, Amusement Park, In the Park, Religion, Scouts, Mealtime Chat and Vacation. The goal of the Mealtime Chat page is to help the user engage in “small talk” during a meal. There is one (1) open page created for a custom activity.

Practice Sentences

The practice sentences are provided to help the adults working with an individual using this page set to become familiar with the contents and location of some of the core vocabulary. It is also intended to demonstrate the complexity of sentences that can be created using Teen 20. Navigating Gateway Teen-20 is simple once the organization is understood.

The following sentences can be created using the MAIN page followed by a Sentence Development Strip. Since the folders automatically close when a vocabulary item is selected, upon speaking the last word of each sentence, Gateway returns the user to the MAIN page.

- I want to eat ice cream.
- I drink apple juice.
- You want to make a picture.
- I wear slippers.
- I play a computer game.

The following sentences make use of the Describe and/or Color Shapes folders located within the respective Sentence Development Strips. The bold words in Blue are the items contained within the respective folder.

- You want to make a sparkle necklace.
- I eat melted ice cream.
- I wear polka dot slippers.
- I play big puzzle.

The following sentences make use of the folders People, Family, Things I Do, Little Words, Describe, Things, and Places. The words are colored according to the Fitzgerald Key format and match the colored folders with the Gateway page set.

- Mom baking the yellow cookie.
- Boy swim with grandfather.
- She love the movies.
- I want to make pretty picture give dad.
